Hi, Marc & Dee,

Michael Berkoff, R5 RPM, is looking for some technical assistance with a former tannery. TAB doesn't have anyone that has a working knowledge of tanneries so I was hoping that ERT had someone that could help out. Some site info is included below for background. There is likely a PFAS issue but that isn't the main driver. Knowledge of tannery operations and cleanup is what is needed.

At this time, Carolyn Acheson & Ed Barth with ORD's Engineering TSC are providing some initial support.

Please let Michael and I know if you have someone with the experience and the time to assist.

Thanks,  
 -Ed.
